& SURVEYORS

INTERNSHIP PROGRAM

Your Key To Success.

The MFS Internship Program is a hands-on experience aimed at preparing students for a career in professional Engineering and Surveying Services. Interns will work directly with our team of inter-disciplinary professionals to develop their skills and explore their field of interest, receiving supervision and guidance along the way.

WHO WE ARE

- » MFS is a multi-discipline engineering and surveying consulting firm with HQ in New Jersey
- » Our team has built a reputation of personalized, high-quality services for a diverse range of clients
- » Young, adaptable, practical, and flexible, MFS' agility allows us to provide our clients with inventive solutions for projects of all sizes and levels of complexity

AREAS OF DISCIPLINE

- » Geotechnical Engineering
- » Structural Engineering
- » Site/Civil Engineering
- » Surveying
- » Construction Management

INTERNSHIP PROGRAM

The comprehensive program at MFS is geared toward exposing interns to a wide variety of business units and responsibilities within our organization. Each intern will interact with multiple divisions with the goal of obtaining a well-rounded understanding of the business and enriching their learning experience.

DETAILS AND QUALIFICATIONS

MFS primarily offers summer internships in either our New Jersey or New York offices. Our internships are paid and interns can also receive school credit if arranged through their school's career services.

The 3-4 week rotation period will be dependent on your availability and firm workload. Internships are available for either current or recently graduated students.

STUDENT TAKEAWAYS

- » Get exposure within multiple disciplines
- » Gain experience in analyzing, reading, and preparing construction documents and plans
- » Develop and refine your AutoCAD skills
- » Receive training in industry Quality Assurance and Quality Control methods (QA/QC)
- » Learn the fundamentals of Engineering and Project Management in a professional setting
- » Complete safety training and understand the importance of safety and company standards
- » A post-internship performance review for the purpose of receiving feedback and mentorship
- » Highly successful interns may be offered extended internship or offer of employment upon graduation

To apply for an internship, send your resume and cover letter to careers@mfsengineers.com.
